WHAT WE DO.

Founded in 2007, Translatina Network (TN) is made up of trans individuals and allies working locally and nationally to promote the healthy development of the LGBTQ community, with an emphasis on transgender Latina communities. Through the delivery of a wide range of information about services and events, educational outreach, and capacity building resources, TN supports individuals in maintaining personal wellness and developing leadership skills. This work also allows for the creation of safe and productive spaces for all gender identities free of oppression and discrimination.

ABOUT *TGNC HEALTH*

TGNCHealth is the long-standing health initiative here at Translatina Network. The work that founded our organization is a special blend of prevention, case management, and referrals – all promoted via year-round events. Our program consists of a multitude of workshops and partnerships with like-minded community providers to provide linkages to care and in-house testing at Translatina Network.

WORKSHOPS & EVENTS

Call us or visit our website & social media pages for an up-to-date list of current and future programmatic events. We are proud to support our community's health and education through ongoing workshops and outreach opportunities.

GET CONNECTED

You can find Translatina Network at various events and functions throughout NYC. We would love to get to know you, so please feel free to reach out to us at HQ office at 127 West 26th 2nd Fl. New York, NY 10001, or calling us (646) 882-2000
